

PA- Supplemental Guidance

ENR-03 **Pumping Plant powered by renewable energy** – Pumping plant/stations that are utilized to supply water to a livestock operation is eligible for this enhancement. Solar, wind, or hydro powered water pumps are eligible.

Pastureland – Actual/no.

Compatibility restrictions ENR 06, ENR09.

Irrigated cropland – Actual/no.

Compatibility restrictions.ENR09

Pumping plants for drainage or wildlife water management are not typical in PA.

The unit in which this enhancement will be scheduled will be based on the number of existing pumping plants converted. You must identify the actual number pumping plants being replaced.

Additional Guidance for 2011-1
